Paper-Based Tests

Written tests can be done in a computer room or a classroom, although it is suggested to be held in a separate classroom after the computer-based tests.

Computer Technicians

30 minutes before test starts, computer technicians should assist in login on the Tests Webpage to each of the computers used for the tests, and be available in the computer room during the test to offer assistance in case of equipment failure.

Computer-Based Tests

Besides, please pay attention to the **Windows Update function** which can also cause the computer to automatically shut down.

Attention: For schools being a WCT Test Site for the first time, your school might be requested for a site visit or a simple computer operation test conducted via phone instructions to ensure normal functioning of the test program on your computers.
